STATE OF ALASKA
Division of Elections
Office of the Lieutenant Governor

November 2, 2016

Dear Media Representative:

We are pleased to provide you with the Division of Elections' 2016 General Election Media Guide and hope you find it both useful and informative as your organization covers the upcoming election.

This guide is divided into three sections and includes information on just about every aspect of elections management and administration. In addition to routine topics covered in every Media Guide, this year we have included new sections on the State Review Board, Recounts, Reading unofficial election results, Language Assistance, Cyber Security and Online Voter Registration.

The Division has made great efforts to include information that will be useful to you in your coverage of the Election. However, we know that you may have additional questions. If you are interested in learning more or have questions about any of the topics covered in the 2016 Media Guide, please contact the Division at 907-465-4611.

The statewide summary of election results will be posted on the web in HTML, PDF and text formats beginning between 9:00 and 9:30 p.m. and updated approximately every 15-20 minutes. This slight delay is due to the Division first counting and uploading Early ballots voted through 11/7/2016 and Absentee ballots received and reviewed by the Absentee Ballot Review Board through 11/1/2016.

In the case of a major disruption (natural disaster, power outages, etc.) the division encourages the media and voters to be patient. While large events of this nature could create delays, the division has many contingencies to ensure the accuracy and integrity of the election.

All of us at the Division of Elections look forward to working with you as you cover the 2016 General Election.

Sincerely,

Josie H. Bahnke
Director of Elections

Voting Information

General Election Day is November 8, 2016

Polling Places

The polls will be open from 7:00 a.m. to 8:00 p.m. on Election Day. Voters can call our polling place located at **1-888-383-8683** to find out their assigned polling place. **In Anchorage, voters would call 269-8683.**

Bring Identification to the Polls

Voters **MUST** be prepared to show one form of identification. Voters may use the following ID: voter ID card, driver's license, State ID card, current and valid photo ID, passport, military ID card, birth certificate, hunting or fishing license. A voter may also use an original copy of one of the following documents if it contains the voter's name and current address: current utility bill, government check, bank statement, pay check, or other government document. *If a voter does not have identification when voting, the voter will be asked to vote a questioned ballot.*

What if the Voter's Name is not on the Register

If a voter's name does not appear on the precinct register, the voter may vote a questioned ballot. Before receiving a ballot, the voter must complete a questioned ballot envelope. The voter's voted ballot will be placed in a secrecy sleeve and then the secrecy sleeve will be sealed inside the completed questioned ballot envelope. All questioned ballots are returned to the Election Supervisor for review and counting by the Questioned Ballot Review Board.

Marking the Ballot

When voting the ballot, the voter needs to completely fill in the oval next to the candidate or issue he/she wishes to vote for. Voters only have to mark the races or issues they choose to vote for. If a voter marks more than one choice in a race or issue, that section of the ballot will NOT be counted. The sections of the ballot that are properly marked will be counted.

If a voter makes a mistake marking the ballot, **DO NOT** erase or correct the ballot. The voter may return the spoiled ballot to an election worker and request a new ballot. If a voter attempts to correct a mistake on the ballot, the corrected vote may not be counted. **Note:** *A voter may only receive a replacement for a spoiled ballot 2 times.*

Assistance While Voting

If a voter needs assistance during the voting process, the voter may ask the election board or have a person of his/her choice provide any needed assistance as long as that person is not a candidate, the voter's employer, agent of the voter's employer or agent of a union the voter belongs to. The voter may receive assistance during each phase of the voting process, including assistance in the voting booth. Alaska Native language assistance is available in many rural communities. Filipino (Tagalog) and Spanish assistance is available in certain communities along the Aleutian chain.

Campaigning Prohibited Near Polls

Political persuasion is prohibited within 200 feet of any entrance to a polling place when the polls are open. This means that there may not be any discussion or display of campaign items for candidates or issues appearing on the ballot at that polling place.

Polling Places

Voters have the following options to find their assigned polling place:

- **Scan the bar code on their my.Alaska.gov voter ID card.**
- **Locate their polling place by entering their address using one of the polling place lookup tools online at:**

www.elections.alaska.gov

- **Call the Polling Place locator at 1-888-383-8683, or in Anchorage, please call 269-8683.**

Ballot Measures

Ballot Measure No. 1 – 15PFVR

An Act Allowing Qualified Individuals to Register to Vote When Applying for a Permanent Fund Dividend.

This act would instruct the Division of Elections to register a qualified Alaskan to vote when applying for the permanent fund dividend (PFD). If a person registers to vote for the first time through a PFD application, the Division of Elections would compare the person's information to state records to ensure that the person is an eligible voter. The Division of Elections would let the citizen know if he or she has been added to the state registration list, or if the person's current voting address does not match the one provided on the PFD form. In that case, the person could change their voter registration address. The notice also would allow an applicant to request removal from the registration list. Thus, using the data from the PFD form, the Division of Elections would register a qualified Alaskan to vote unless he or she opts out. The notice would also allow a person to register with a political party. Voter information is already confidential under existing state law.

Should this initiative become law?

Ballot Measure No. 2 – SJR 2

Allow Debt for Postsecondary Student Loans

This amendment to Article IX, section 8 of the Alaska Constitution would expand the State's authority to incur debt by letting the State issue general obligation bonds backed by the state for postsecondary student loans.

Should this constitutional amendment be adopted?

Unofficial Election Results

The Division of Elections will begin posting unofficial results at approximately 9:30 p.m. on election night and will continue to update the results every 15-20 minutes after the polls close until results have been received by all precincts. The summary will be posted in HTML, PDF and .txt formats. The statement of votes cast will be posted at the end of the night when the precincts have finished reporting.

Statewide Election Summary

This is a summary showing the entire results for each race appearing on the ballot.

Registered Voters	=	Number of registered voters in the State of Alaska
Cards Cast	=	Total number of ballots cast
Number of Precincts	=	Total number of precincts where race appears on ballot
Precincts Reporting	=	Of the number of precincts where race appears, this is the number that has reported results. Throughout election night, this number changes as precincts report. Keep in mind that a precinct shows as reported when the optical scan or hand-count results are uploaded. There may still be results needing to be uploaded from the precinct's touch screen unit.
Times Counted	=	Number of ballots counted that included the individual race.
Total Votes	=	Number of votes counted in the individual race. This number may be lower than "times counted" because some voters chose not to vote in the race.

Statement of Votes Cast

This contains the individual district results for each race and includes the results for each race in each precinct in the district.

Reg Voters	=	Number of registered voters in the State of Alaska
Cards Cast	=	Total number of ballots cast
% Turnout	=	Number of cards cast divided by number of registered voters, expressed as a percentage.
Total Votes	=	Number of votes counted in the individual race. This number may be lower than "times counted" because some voters chose not to vote in the race.

Results are posted to web at:

House District 99 Explanation

Although Alaska has only 441 voting precincts, the election results will show 442. The 442nd precinct was created to separate and report the results from voters who are eligible to vote an absentee ballot and have their vote count for only the federal races (United States President, United States Senator and United States Representative). These “Federal Only” voters are US Citizens who were last domiciled in Alaska but are now residing permanently overseas. Absentee ballots counted from Federal Only voters will be included in the election summary results. The vote totals will also be included on the Statement of Votes Cast report for District 99.

Early Voting

Early voting is available at each Regional Elections office beginning 15 days prior to the election. A voter is eligible for early voting if the voter has registered at least 30 days prior to the election and if the voter's residence address on the registration record is current. The difference between early and absentee in person is that an early voter's eligibility is verified at the time of voting through the division's voter registration system. The early voter's ballot is placed directly into the ballot box. When voting an absentee in person ballot, a voter's eligibility to vote is not verified at the time of voting. The voter's absentee ballot must be placed inside a ballot envelope so that the voter's eligibility to vote can be verified by the regional absentee ballot review board prior to the ballot being opened and counted.

Absentee Voting

Alaska law allows voters to vote absentee four ways: in person, by mail, electronically or by a special needs ballot. All voted absentee ballots are placed inside a ballot envelope that contains information about the voter. The information provided by the voter on the ballot envelope is compared to the voter's registration information to determine the voter's eligibility to vote. All absentee ballots are reviewed by a bi-partisan absentee ballot review board prior to being opened and counted.

❖ **Absentee Voting In Person**

Beginning 15 days before an election, voters may vote at an absentee voting site. Ballots for all 40 districts are available at all Regional Election offices. In addition to the Regional Elections offices, there are many other voting sites throughout Alaska that will have ballots for their house district. For more information or for a list of absentee voting locations visit our website or contact a Regional Elections office.

❖ **Absentee Voting By Mail**

To receive a ballot in the mail, a voter must submit an absentee ballot application. The deadline to apply for a by mail ballot for the General election is October 29, 2016. Voters should apply early to ensure they receive their ballot on time. Voted ballots must be postmarked on or before Election Day.

❖ **Absentee Voting By Electronic Transmission**

Receiving a ballot by electronic transmission should be the voter's last alternative for casting a ballot. The application period for electronic voting begins October 24, 2016 and continues through 5:00 p.m. Alaska time on November 7, 2016. There are two methods for electronic voting: receive a ballot online (voters must have an email address) or receive a ballot by fax. Voters may return their voted ballot by mail or by the electronic transmission method in which they received their ballot. If a voter returns the voted ballot electronically, it must be received no later than 8:00pm Alaska time on Election Day. If it is returned by mail, it must be postmarked on or before Election Day.

❖ **Special Needs Voting**

Voters who are unable to go to the polls due to age, serious illness or a disability, may vote a special needs ballot. For special needs voting, a voter may ask a friend or family member to serve as his/her personal representative to pick up the ballot and deliver it to the voter. Special needs ballots are available at any early or absentee voting location beginning 15 days prior to the election as well as at the polls on Election Day. The voter's personal representative can be anyone over 18, except a candidate for office in the election, the voter's employer, an agent of the voter's employer, or an officer or agent of the voter's union.

Questioned Voting

There are several reasons why a voter would be required to vote a questioned ballot: the voter's name is not on the precinct register; the voter does not have identification and is not personally known by an election board worker; the voter's qualifications are questioned.

Before receiving a ballot, the voter must complete a questioned ballot envelope. The voted ballot is placed inside the completed envelope. The information the voter provides on the envelope will be used to determine the voter's eligibility. All questioned ballots are reviewed by a by-partisan questioned ballot review board prior to being opened and counted.

Counting Ballots

The results from absentee, questioned and early ballots are included in the statewide summary report. In addition, the statement of votes cast includes a breakdown of the

results in each House District. The following is a summary of ballot counting for absentee, questioned and early voted ballots:

❖ Absentee Ballots

Absentee ballots are counted by House District. Once the ballots have been reviewed by the Absentee Ballot Review Board, the ballots can be opened and counted. The statutory deadline for receiving and counting official absentee ballots is 10 days following the election for Primary elections and 15 days for General elections

❖ Questioned Ballots

Questioned ballots are counted by House District. Questioned ballots from the entire district must first be reviewed by a questioned ballot review board prior to being counted. Once the ballots have been reviewed by the Questioned Ballot Review Board, the ballots can be opened and counted. Questioned ballots are generally counted beginning the 7th day following the election and again on the 10th day following the election. The statutory deadline for counting questioned ballots is 10 days following the Primary election and 15 days following the General election.

❖ Early Voted Ballots

Regional offices count the early voted ballots that were voted prior to Election Day on election night. The early ballots that are voted on Election Day are counted by the regional office on the 7th day following the election.

“Close Race” Policy

The Division of Elections first priority is to protect the integrity of the electoral process and to ensure that every absentee and questioned ballot received a thorough review to determine the voter’s eligibility to vote. It is our policy that all absentee and questioned ballots will be reviewed and processed by district in date order as they are received. Close races will be processed in accordance with this policy.

Alaska's Ballot Counting System – Cyber Security

Alaska uses three different methods to count ballots at the precinct level:

- ❖ Hand-count (137 precincts)
- ❖ Optical Scan (304 precincts)
- ❖ Touch Screen w/voter verifiable paper trail

Alaska's ballot tabulation system has a paper trail of every ballot cast. Each precinct receives paper ballots that are either hand-counted when the polls close or counted using an optical scan unit as the voter inserts the ballot into the optical scan. In addition, during federal elections, each precinct has a touch screen voting unit equipped with a voter-verifiable paper trail that allows the voter to verify the printed version of the ballot prior to casting the ballot. 99% of all voters in Alaska cast a paper ballot. The touch screen voting units are used by 1% of the voters.

The ballot tabulation system used in Alaska to produce and count ballots is federally certified and is thoroughly tested prior to each election. It is a stand-alone system that is not connected to the internet or to a network.

Each optical scan and touch screen voting unit, along with their corresponding memory cards are tested prior to the election. A functionality test is conducted to ensure the equipment is in proper working order. Two different logic and accuracy tests are performed, by two different bi-partisan boards, on memory cards to ensure the cards are counting the ballots correctly. In addition to this testing, the division performs a HASH code verification on the software used in the ballot tabulation system computers prior to the election to verify the software on Alaska's computers match the certified software that is in the National Software Reference Library (NSRL) maintained by the National Institute of Science and Technology (NIST). The HASH verification is an extra security measure implemented in Alaska to ensure the software used in Alaska's ballot tabulation system has not been tampered with.

In addition to the pre-election testing, the division is required by law to conduct a verification of the machine counts by hand-counting ballots from a random sampling of precincts. In fact, through this verification, 5% of the ballots cast in each of the 40 house districts throughout Alaska are hand-counted after the election to verify the election results are accurate. If there is a discrepancy of more than 1% in the hand-count verification, the division is required to hand-count all of the ballots cast in the district. There has never been a discrepancy of 1% or greater since this requirement has been in place. In fact, the few minor discrepancies that have been found were related to "marginally" marked ballots – meaning the voter did not completely fill in the oval for his/her selection, as instructed, and the optical scan unit could not detect the mark.

In an effort to ensure the state's ballot tabulation system is secure, the Lt. Governor and the Division of Elections commissioned the University of Alaska, Anchorage to conduct a study in 2007 and 2008 to examine the security of the state's election system. As part of the review, UAA examined not only the voting technology but also the policies and procedures used by the Division of Elections that add to the security of the system. The University found that Alaska's system is among the most secure in the country. Although

the overall system was found to be secure, the University provided several recommendations to further improve security. The Division of Elections has since implemented all recommendations provided by the University. The most recent recommendation implemented by the division was the upgrade, in 2011, of the ballot tabulation system's software to Assure 1.2. The Assure 1.2 software upgrade includes significant improvements to overall system security and addressed known vulnerabilities in the previous version of the software.

The testing, security and verification processes used by the Division of Elections during each election and reviewed by the University of Alaska, Anchorage, along with the upgrade of the ballot tabulation system software, ensures that Alaska's ballot tabulation system is secure and our election results are accurate.

State Review Board (SRB)

The State Review Board (SRB) is a bi-partisan review board comprised of at least eight members for primary and general elections, and at least four-six members for state conducted local elections. SRB members must be U.S. citizens. The director shall appoint two persons from the political party of which the governor is a member and two persons from the political party that received the second largest number of votes statewide in the preceding gubernatorial election to participate in the state ballot counting review. Each political party may present to the director a list of three or more names from which the director shall select the persons to represent the party. (AS 15.10.180).

The SRB is responsible for testing the ballot count programming, review of all precinct registers, absentee site documentation, absentee and questioned voter registers, tally sheets and ballot tabulation tapes to ensure that reported election returns are accurate and complete. In addition to the review, prior to certifying the election, a hand count verification must be performed in at least one precinct per district that account for at least five percent of the ballots cast in the district.

Recounting the Ballots

When there is a discrepancy of four or more votes than ballots cast and the SRB has exhausted all possibilities for resolving the discrepancy, members will recount the ballots. The totals confirmed by the SRB are used as the official totals.

In the event of a close race and a recount is required by law (AS 15.20.430) the SRB will not recount the ballots if the SRB review doesn't reveal any discrepancies, rather, the recount will be undertaken as directed by AS 15.20.480, which outlines the procedure for an election recount.

Election Recount Statutes

The Division of Elections has included on this page and the following pages, sections in Title 15 that pertain to the election recount process.

Sec. 15.20.430. Authorization of recount application.

(a) A defeated candidate or 10 qualified voters who believe there has been a mistake made by an election official or by the counting board in counting the votes in an election, may file an application within five days after the completion of the state review to the director for a recount of the votes from any particular precinct or any house district and for any particular office, proposition, or question. However, the application may be filed only within three days after the completion of the state review after the general election for a recount of votes cast for the offices of governor and lieutenant governor. If there is a tie vote as provided in [AS 15.15.460](#), the director shall initiate the recount and give notice to the interested parties as provided in [AS 15.20.470](#).

(b) The date on which the director receives an application rather than the date of mailing or transmission determines whether the application is filed within the time allowed under (a) of this section. If the actual physical delivery by telegram of a copy in substance of the statements made in the application for recount is received in the office of the director at or before 5:00 p.m. Alaska Standard time on the due date, the application will be accepted; providing the original signed application is postmarked at or before 5:00 p.m. Alaska Standard time of the same day.

Sec. 15.20.440. Form of application.

(a) The application shall state in substance the basis of the belief that a mistake has been made, the particular election precinct or house district for which the recount is to be held, the particular office, proposition, or question for which the recount is to be held, and that the person making the application is a candidate or that the 10 persons making the application are qualified voters. The candidate or persons making the application shall designate by full name and mailing address two persons who shall represent the applicant and be present and assist during the recount. Any person may be named representative, including the candidate or any person signing the application. Applications by 10 qualified voters must also include the designation of one of the number as chair. The candidate or persons making the application shall sign the application and shall print or type their full name and mailing addresses.

(b) Candidates, political parties, or organized groups having a direct interest in a recount and who are seeking to protect their interests during a recount may provide, at their own expense, two or more observers to witness the recount.

Sec. 15.20.450. Requirement of deposit.

The application must include a deposit in cash, by certified check, or by bond with a surety approved by the director. The amount of the deposit is \$1,000 for each precinct, \$2,000 for each house district, and \$15,000 for the entire state. If the recount includes an office for which candidates received a tie vote, or the difference between the number of votes cast was 20 or less or was less than .5 percent of the total number of votes cast for the two candidates for the contested office, or a question or proposition for which there was a tie vote on the issue, or the difference between the number of votes cast in favor of or opposed to the issue was 20 or less or was less than .5 percent of the total votes cast in favor of or opposed to the issue, the application need not include a deposit, and the state shall bear the cost of the recount. If, on the recount, a candidate other than the candidate who received the original election certificate is declared elected, or if the vote on recount is

determined to be four percent or more in excess of the vote reported by the state review for the candidate applying for the recount or in favor of or opposed to the question or proposition as stated in the application, the entire deposit shall be refunded. If the entire deposit is not refunded, the director shall refund any money remaining after the cost of the recount has been paid from the deposit.

Sec. 15.20.460. Determination of date of recount.

If the director determines that the application is substantially in the required form, the director shall fix the date of the recount to be held within three days after the receipt of an application requesting a recount of the general election votes cast for the office of governor and lieutenant governor and within five days after the receipt of an application requesting a recount for any other office, question, or proposition.

Sec. 15.20.470. Requirement of notice.

The director shall give the candidate or designated chairperson signing the application, the two or more persons appointed to represent the applicant during the recount, and other directly interested parties, notice of the time and place of the recount by certified mail, telegraph, telephone, or facsimile.

Sec. 15.20.480. Procedure for recount.

In conducting the recount, the director shall review all ballots, whether the ballots were counted at the precinct or by computer or by the district absentee counting board or the questioned ballot counting board, to determine which ballots, or part of ballots, were properly marked and which ballots are to be counted in the recount, and shall check the accuracy of the original count, the precinct certificate, and the review. The director shall count absentee ballots received before the completion of the recount. For administrative purposes, the director may join and include two or more applications in a single review and count of votes. The rules in [AS 15.15.360](#) governing the counting of ballots shall be followed in the recount when a ballot is challenged on the basis of a question regarding the voter's intent to vote for the candidate, proposition, or question. The ballots and other election material must remain in the custody of the director during the recount, and the highest degree of care shall be exercised to protect the ballots against alteration or mutilation. The recount shall be completed within 10 days. The director may employ additional personnel necessary to assist in the recount.

Sec. 15.20.490. Certification of results.

If it is determined by recount that the plurality of votes was cast for a candidate, the director shall issue a certificate of election or nomination to the elected or nominated candidate as determined by the recount. If it is determined by the recount that a proposition or question should be certified as having received the required vote, the director shall so certify except that the lieutenant governor shall so certify if the proposition or question involves an initiative, a referendum, or a constitutional amendment.

Sec. 15.20.500. Authorization for expanding recount. [Repealed, Sec. 6 ch 26 SLA 1966].
Repealed or Renumbered

Sec. 15.20.510. Provision for appeal to courts.

A candidate or any person who requested a recount who has reason to believe an error has been made in the recount (1) involving any question or proposition or the validity of any ballot may appeal to the superior court in accordance with applicable court rules governing appeals in civil matters, and (2) involving candidates for the legislature or

Congress or the office of governor and lieutenant governor may appeal to the supreme court in accordance with rules as may be adopted by the court. Appeal shall be filed within five days of the completion of the recount. Upon order of the court, the director shall furnish the record of the recount taken, including all ballots, registers, and other election material and papers pertaining to the election contest. The appeal shall be heard by the court sitting without a jury. The inquiry in the appeal shall extend to the questions whether or not the director has properly determined what ballots, parts of ballots, or marks for candidates on ballots are valid, and to which candidate or division on the question or proposition the vote should be attributed. The court shall enter judgment either setting aside, modifying, or affirming the action of the director on recount.

Sec. 15.20.520. Provision for appeal to legislature or Congress.

A candidate or persons who requested a recount, who have reason to believe an error has been made in the recount involving a candidate for the general election for the state legislature or Congress, may appeal to the chamber in which the candidate seeks membership in accordance with applicable rules of the legislature or Congress. Upon request of the legislature or Congress, the director shall furnish the record of the recount taken including all ballots, registers, and other election material and papers pertaining to the election contest.

Sec. 15.20.530. Determination of tie votes.

If after a recount and appeal two or more candidates tie in having the highest number of votes for the same office, the director shall notify the candidates who are tied. The director shall notify the candidates of a reasonably suitable time and place to determine the successful candidate by lot. After the determination has been made by lot, the director shall so certify.
