Hunting

OTHER:

As a Construction Worker and Manager I have worked construction projects and mission work in Haiti, Indonesia and Russia.

STATEMENT:

As a conservative, I believe in a smaller more efficient government that serves all of the people in our state. I worked hard to accomplish many cost efficient projects for our community as chairman of the Sutton Community Council for four years. I will bring with me, that desire and determination to get things accomplished at the State House. I will not serve special interest over what is best for Alaskans.

Alaska is land plenty and infrastructure poor. We need road and bridge improvements, and a gas line for the interior. We need lower cost fuel for heating, electric and transportation. Our state constitution encourages development of our natural resources and I have always fought for responsible resource development while insuring good paying family jobs for our future.

I believe we can again achieve the economic prosperity that was once indicative of the state we work and play, while preserving our personal freedoms granted by our constitution. I agree with the saying that, "A government governs best, which governs least." Government must create an atmosphere where businesses can flourish and not regulate them out of existence.

My core values are right-to-life, parental consent and choice in education. As an NRA member, I believe in the right to bear arms. Our first and second amendment rights along with life, liberty and property shall not be infringed upon.

After winning the debate against my opponent, I am endorsed by the CPG.

With your vote, we'll get things accomplished this year!
