Trustee Palmer Elks Lodge 2006-2009  
National Rifle Association 2002-2012

**SPECIAL INTERESTS:**  
Scuba Diving, Fishing

**STATEMENT:**  
Alaska is at a crossroad; it's time to turn our dreams into reality. Our children's and grandchildren's futures are at stake; however with forward insight we can generate new employment and prosperity for Alaska's future. Currently we have all our eggs in the oil revenue basket, an asset which has exceeded its life span and needs repair. We need to work with the producers and help fund and construct an All-Alaskan gas line. Selling the state's natural gas benefits Alaskans and oil company economics, and gas exploration would prospectively find more oil and fill the pipe line as well. We'll never get as rich off gas like we did with oil; however both together will ensure a vibrant Alaskan economy.

Jobs on the North Slope currently held by outsiders inasmuch as we do not have the trained labor work force exports about \$4.5 billion out of our state. Working with oil producers, we can create a drilling school right here to replace these retiring workers and new hires, with skilled Alaskans. The oil companies want tax breaks. We need Natural Gas development and jobs. Let's get what we need while the producers get theirs; a fair and equal trade. I have carried the torch of conservative common sense in both my elected positions and fulfilled my oaths of office. Many of you feel politically homeless because of becoming disenfranchised with current party politics and I feel your pain. I will represent our needs and you with honesty and integrity.
