Statement:

I am a life-long Alaskan and have been a commercial fisherman for over 50 years. I understand how important fishing is to our economy and to our communities along the coasts of Alaska.

This way of life connects us with our past and as your representative, I will work to protect this future and ensure that our families achieve the exceptional quality of life that all Alaskans deserve.

We have an abundance of natural resources and talented people. I want to make Alaska a place where:

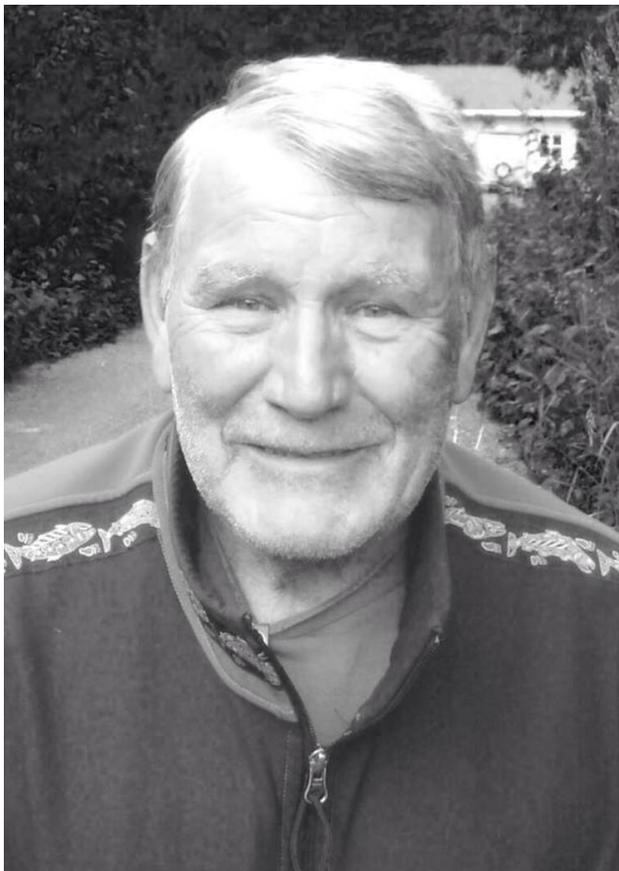

- innovation and ideas flourish,
- our resources are put to good use,
- and where education is the highest quality

I love Alaska and what I love most is the people. Our children are the most important resource we have. We need to make a lasting commitment to their education by giving our schools the resources needed to inspire teaching and learning.

Hard work, dedication, and the will to succeed—these are the values that built and pioneered Alaska.

As a political advocate for the fishing industry for the past two decades, I know how to maneuver the legislature to get things done. I want to take that experience to a new level of representation for Kodiak, the Prince William Sound and Cook Inlet District. You are my special interest.

Please vote Jerry McCune for State House.
