Other (Biographical Information Only):

First and foremost I am a Patriot and not a politician. My love for Alaska began as teen. I served in the mightiest military the world has seen. I took an oath to protect and defend the Constitution of the United States. Once I retired from the military I gave up wearing that proud tradition of the uniform. However I did not give up the oath to defend and protect the Constitution.

Statement:

We can all agree that our Government is headed in the wrong direction; and that changes must be made if our nations is to survive. "The only way we are going to change Washington is to change the people that are there". As a Nation we cannot deny that we have issues with an out of control budget, rising taxes, an IRS scandal, skyrocketing unemployment, immigration issues, an influx of illegals as a result of an

open borders, turmoil in the Middle East, the deaths & treatment of our Vets, assaults on the 2nd Amendment, BLM issues, over reaching authority of the EPA, rising fuel prices just to name a few, and the blatant disregard of the Constitution by member of Congress and the Administration. Congress now has a 5% approval rating which is a direct reflection of its inept ability to operate and protect the states and country of our liberties. This upcoming election is not just about Alaska and Alaskans. It should not be about how much money one raised or seniority, it is about the United States, our God given unalienable rights and the degradations of our freedoms. I cannot promise that I can solve all the problems that face our country today; however I make this pledge to the people that I will not compromise my morals or the trust you put in me. All I am asking is for your vote and a chance to prove that we will always be the greatest nation.
