**Other (Biographical only):**

Prior to moving to Alaska, I spent nearly every summer in Alaska since 1984. I also attended Wendler Jr. High for a semester in 8th grade and worked as an Anchorage Daily News delivery boy in East Anchorage.

**Statement:**

I believe in the future of Alaska, developing our resources and building a strong economy. I am dedicated to improving the prosperity of all Alaskans and protecting our personal liberties. That is why I am running for State House – to protect our prosperity.

**PRIORITIES FOR EAST ANCHORAGE & ALASKA**

During the past 7 months, I walked the neighborhoods of East Anchorage and talked to our neighbors to better understand our area. The issues that are the most important to you - are my priorities.

- Improve our local roads, schools and public safety.
- Create opportunities for jobs and new businesses. Better paying jobs for Alaskans!
- Develop our resources and infrastructure for a stronger economy.
- Protect the Permanent Fund and your Dividend with a long-term fiscal plan for Alaska.
- Restore personal liberty and responsibility.
- Support our retired, military families and veterans.
- Restrict government intrusion into our businesses and personal lives.
- Fervently defend the U.S. Constitution and the 2nd Amendment.

By working together, we can make important changes in our community – we can ensure that our neighborhoods are safe, we can ensure our children have a world-class education, we can ensure that small businesses are flourishing and Alaskans are working, we can ensure that our state is on a fiscally stable path to the future. I pledge to work diligently to find creative solutions that improve our neighborhoods and build a stronger Alaska for all of us.

I would be honored to have your vote in August and again on November 4th.
