Installing, programming, maintaining, Linux operating system and other open source software.

Other (Biographical Information Only):

I served On many State disaster missions including the Exxon Valdez oil spill.

Statement:

I first arrived in Alaska in 1962. My life here includes a 20 year career in Alaska's Army National Guard. I've spent time in virtually every corner of our state and know it's uniqueness well. I have served on the Alaska's State Commission on Human Rights and, for the past seven years, I have also served on the Citizen's Advisory Commission on Federal Area's, dealing with federal regulators, the public and issues relating to federal and state relations. This experience has given me a good understanding of the issues facing Alaska. My term as president of Airport Height Community Council, also shows my ability to work with diverse groups of individuals while pursuing our common interest.

I am the only U.S. senate candidate endorsed by the Alaska Libertarian Party. My position is the Libertarian Party Platform. I believe government's sole legitimate function is to protect and defend the individual right to life, liberty and property of us all.

My goals as a US Senator would include:

Eliminate the IRS and implementing a fair tax system.

End the War on Drugs.

Establish an Immigration policy that protects our country and provides for the free exchange of goods and services with the world.

And finally, we must bear the true cost of war by honoring the commitments we have made to our service members and veterans.

Join me in the defense of our rights and country. Together we can set course to a bright future. I ask for your vote.
