SkillsUSA VICA 1984 to present  
Bow Hunting Safety Instructor ADG&G

**Statement:**

I am running because House District 10 needs a legislator that listens to the citizens they represent and work across party lines to make Alaska a better place to live. In my 39 years in the Valley, I have seen it turn from a sleepy community to a major population center; I would like to make sure the District 10 is still a great place to raise our children.

**Economy**

Alaska needs a stable oil and gas tax policy that promotes development without leaving the citizens holding the bag.

**Education**

Alaska needs to provide adequate funding for Alaska's schools.

**Environment**

Alaska needs to develop its resources in a way that does not harm our environment.

**Local Infrastructure**

The Mat-Su is growing by leaps and bounds, while the state is building new roads; they are not upgrading the existing secondary roads. Every part of this district has substandard roads that are not being addressed.

**Jobs**

The state needs to invest in Alaskans so residents can get good paying jobs in state.

**Gas Line**

We need a gas line to develop Alaska's gas and make sure the citizens of Alaska have a supply of gas to meet our energy needs.

**Public Safety**

I believe that we need to provide adequate funding to keep our citizens safe.

**Health Care**

I believe that all Alaskans should have access to healthcare.

**Freedom and Privacy**

I will fight for our freedoms and privacy rights under both the US and Alaska constitutions.
