Special Interests:

Books, boating, travel, fishing, women's bible study group leader

Statement:

This is a pivotal time for southern southeast Alaska. Our commercial fishing and tourism industries are strong. Important transportation and infrastructure improvements have taken place, helping ensure we are ready to make the most of new opportunities. There is renewed energy among communities due to the promise of expanding jobs in the maritime, mining and mariculture industries. Our region needs representation that will work hard to make these opportunities become realities.

This election is critical to securing our district's future success in the Alaska State Legislature. Now is the time to choose a representative with proven leadership skills, who has earned respect and trust within our district, and can build positive relationships with other legislators, and the administration.

Throughout my career I've worked to help grow economic prosperity in Ketchikan and the surrounding area. I have gained experience in Juneau promoting local priorities and representing one of Alaska's largest industries. I want to apply my time, experience, and skills to help our region secure a bright future for ourselves and our children.

I pledge to work toward:

- Stronger economies in our communities- keeping existing industry viable and fostering new opportunities
- Efficient, cost effective transportation and energy solutions, and improving communications capabilities
- Opposing regulations that compromise our rights as Alaskans
- Honoring the unique attributes and needs of each community in our district

It's time for new energy and commitment to the people of southern southeast. I am ready to go to work and hope you will support my candidacy. Thank you.
