Nikiski Senior Center, IBEW LU 1547, Moose Lodge

Statement:

My name is Rocky Knudsen. I am running for State House in District 29. This is a geographically large area covering: Nikiski, Sterling, Cooper Landing, Moose Pass, and Seward.

Alaska is entering into a new era filled with growth and expansion. I believe we have to elect leaders who will take care of Alaska's best interests first. Our children will pay the price for the mistakes we make today, or will reap the benefits of the jobs this expansion will create.

I also believe that educating tomorrow's work force is critical. We need to invest in our children's education to give them the proper training prior to becoming adults and entering the work force. A good education and strong infrastructure will ensure that our children will have good jobs here at home.

I have lived through good and bad times in Alaska. I've seen periods when we have had plenty of work and periods where finding a job was very difficult. We can do better for our children, and ensure they have the chance for a good life in Alaska.

Together we can build Alaska for the future. Our children are depending on us to protect today's jobs for tomorrow.
