Hunting, Fishing, Shooting

### **Statement:**

This is an exciting time in our state as we navigate our way toward a more diverse economy and continue the fight for less government intrusion in our lives. Having served

the people of the Mat-Su Borough on the Assembly for two terms and as Deputy Mayor, I am now running for State House to continue to represent you and every other District 12 resident.

Along with my public service record, I have a unique set of skills and experiences that will allow me to address our states challenges head-on as we enter the next chapter of our history. Working independently for large corporations that employ people nationally has given me the opportunity to oversee large construction projects, economic development initiatives and important natural resource extraction missions. Additionally, I own and operate an environmental remediation and import / export firm where every day I further increase international trade between Alaska and several world markets.

As a lifelong, hard-working Alaskan and a father raising my family in this beautiful state, I believe we must use common sense and work together to unify our community. We can have economic development while protecting our unique way of life and the environment.

I will continue to bring people together, as this truly is the Alaskan way of life, allowing us to preserve our great district and state!

I respectfully request your support and your vote on August 19<sup>th</sup>.  
Sincerely,

Ron Arvin, State House Candidate District 12 [www.RonArvin.com](http://www.RonArvin.com)  
Solid Conservative - Proven Leadership - Unique Experience
