Hiking, Biking, Skiing, Skating, and spending time with my family.

**Statement:**

It's time to focus on the real issues in Juneau, and there really is only one. With the State facing a \$4 billion deficit, we need representatives in Juneau who are willing to set aside party politics and work together to develop a long range fiscal plan that will ensure the prosperity of Alaska. That plan must include a balanced combination of strategic cuts and new revenue sources to ensure that all Alaskans and the corporations doing business here pay their fair share.

I recognize that oil revenue is drying up fast, but we cannot simply cut our way out of this deficit. We need to find creative solutions to diversify this economy. Having worked in both the oil industry and public education, I appreciate the challenges presented by shrinking budgets as well as the value added by responsible investment in both the public and private sectors. We need to make strategic cuts when necessary, but we also need to make sure we protect the basic infrastructure that makes Alaska such a great place to live.

As a 32 year resident of Eagle River, I understand the diverse interests of this community. I am running as a nonpartisan candidate to provide a common sense, independent voice for the people of District 14. I believe there are reasonable solutions to Alaska's fiscal problem. I believe the people of Eagle River are ready to set aside partisan politics. And I believe working together matters.
