Statement:

We must enact a lasting fiscal plan that provides certainty and stability for future generations. As a fiscal conservative I intend to turn the budget crisis into opportunity using a common sense approach and strong commitment to getting the job done. I will work on these priorities and more:

- Stop spending without measure and demand budget accountability.
- Protect the Permanent Fund and PFD by implementing a long-term fiscal plan.
- Work to improve the quality and value of Alaska's education system.
- Focus on public safety while defending due process and supporting victims' rights.
- Defend public access to land and waterways for recreation and personal use.
- Safeguard the U.S. Constitution and 2nd Amendment.
- Secure support for our military, veterans and their families.
- Promote free market principles, responsible resource development and entrepreneurs.

A TURN IN THE RIGHT DIRECTION

I have a proven reputation for building consensus and delivering positive results. I have real-world small business experience and will work to reduce the scope of government in our daily lives. I truly understand the meaning of diversity and have a proven record of support for our students and military.

It's your turn to elect a new Senator who will focus on your interests and demand a long-term fiscal plan to protect our future and the economy. Let's make East Anchorage and JBER a safer and even better place to live, work and play. Thank you for the opportunity to earn your vote.
