Statement:

"Government has no other end, but the preservation of property"

-John Locke, an excerpt from the Second Treatise of Civil Government, 1690

I believe government desperately needs to return to this concept. Government's only "job" should be enabling individuals, and local businesses, to thrive without unnecessary interference. These ideas and priorities guide my work for you.

- Securing & Protecting Property Rights

- By promoting "Grandfather Rights" and independent service area, and opposing forced boundary changes.

- Repealing Unnecessary and Harmful Government Regulations

- Through analyzing the purpose and actual effect of laws, pushing back to repeal harmful regulations both current and proposed.

- Promoting Alaska's National Guard and Military Bases

- Showing our gratitude to our troops and promoting the economic and security value of our installations.

- Researching and Promoting Innovative Affordable Energy Solutions

- Pursuing natural gas, additional oil fields, and mining development is important. But from propane distribution to biofuel conversion, there are effective ways of addressing the Interior's energy needs.

I will always make time to accommodate your schedule and hear your concerns; your thoughts are important. Thank you for the honor of working for you.
