**Special Interests:**

Family, Hunting, Fishing, Golf, Motorcycling

**Statement:**

I am a vigorous supporter of the Armed Forces in Alaska. Expansion and improvements at Eielson Air Force Base and Clear Space Station aren't just good for Alaska, it has significant national security implications.

Responsible cuts to the budget must continue to proceed through these historic times, carefully crafting a leaner and more efficient state government while providing critical services for Alaskans. This process will require constant vigilance to keep our economy viable and providing the appropriate policies for growth.

Developing more of our resources sensibly and responsibly will provide revenue, create jobs, encourage development and investment, and generate hope for young Alaskans.

Energy remains an issue in District 6. Significant projects in "Middle Earth" will hopefully be successful soon and can help provide affordable electricity and space heating. Support for these projects will significantly reduce dependence on subsidies in the future.

Substance abuse has reached epidemic levels at many places in Alaska. We can't be silent and need to continue addressing this problem aggressively. The same can be said for spousal abuse, sexual assault, and child abuse and neglect. These are difficult issues to discuss and deal with but we have far too many heartbreaking stories, and it is my desire that we continue to pass legislation designed to have a direct effect on these things. It is my hope that we can engage everyone in Alaska to "turn the tide" on these detrimental circumstances.
