Other:

Dear Neighbors

Daniel Lynch, born and raised on the shores of Lake Michigan, is a 20-plus-year resident of the Kenai Peninsula. During his 35 years in the construction industry, he has worked in both rural and metro areas from the East Coast to the Midwest to the Rocky Mountains, finally putting down roots in Alaska.

During his 20 years of residency and employment in this great state he has been fortunate to have worked in towns and villages from the Kotzebue to Kake, as well as extensively on the Kenai Peninsula. It is this experience, from all around Alaska, that has instilled in Daniel a deep understanding of the many issues and challenges facing all areas of our state, as well as potential solutions for our citizens. Speaking as a construction worker and not a politician, these can be achieved “on time and under budget.”

Statement:

Dear Fellow Voters:

I am from the era in which our president, President Kennedy, asked not what our country could do for us, but what we could do for our country. In this case also our state and our district. Raised with this in mind, and choosing not to be a spectator or a leech, I feel a duty to serve and to offer much needed change. I’m non-partisan (a free thinker) because over the last 25 years I’ve witnessed Washington D.C. becoming increasingly gridlocked, with zero positive advances for our country. It is the same cancer that I have seen spread to Juneau, leaving our state with huge financial and social holes and no positive solutions and only “phantom” diversification to our economy.

Having been retired now for two years, I have had time to consider the many issues facing our state and believe I have come up with some reality-based, common-sense solutions to our debt and revenue woes, as well as potential paths toward real diversification, and growth for all Alaskans, not just the special interests.

When November arrives, please ask, for yourself, your kids, your grandchildren: Do I want to vote for more of the status quo, simply because that’s in my comfort zone? Or would I like to help grab the rudder and change the direction of our “ship of state,” and steer it back in a positive direction, with opportunities for all Alaskans.
