Special Interests:

Constitutional, Biblical, and Historical Studies; Fishing, Sailing, Diving, Hiking, Wilderness travel, alternative-energy, Alaska's Budget and Oil & Gas Production

Other:

NAUI Certified. Diver; HAM Operator-Extra/VE

Statement:

My previous campaign cornerstone was to forewarn of coming days when a PFD cut and income tax would become a reality if the legislature DID NOT reduce spending to sustainable levels. My opponents said nothing!

Government had the luxury of growing and spending unchecked for years when oil prices were high. When they dropped, government had no plan, no solution, and minimal will to adequately adjust the largess of government.

Their way-out removes **HALF OF YOUR PFD AND ALL FUTURE GROWTH** to sustain overspending. This will affect **ALL CHILDREN, SENIORS, FAMILIES** and **ALL LOCAL ECONOMIES** where most money is spent and needed. Next will be progressive **INCOME TAXES**, then what? Government sees no boundaries. I do!

This year's budget buster, HB247 extends Oil & Gas reimbursements, costing an additional \$1-billion out five more years, adding to \$6-billion already spent with little return to our Treasury. Offsetting Oil & Gas reimbursements with a PFD/Income-tax grab is wrong!

The ISER/Goldsmith Economic-Model is a plan and solution I support which has been ignored by the legislature for years. This concept provides targeted government spending levels and supports keeping money in the hands of the people.

I will NOT vote to change the PFD calculation, implement income/sale taxes, or bust the budget.

I graciously ask for your vote. **I will safeguard the way of life you have chosen and the level of privacy, freedom, and liberty you live by.** Please visit pamgoode.com or call-me/907-803-0135!
