Special Interests: Family time, sport fishing, hunting, hockey, youth development, economic development, senior, veteran and disabilities issues, agriculture.

Position Statement:

I respectfully request your support. We have weathered the storm and are climbing out of the recession without taxes or any other permanent, negative impact to Alaskans.

I have delivered more cuts in committee than any other legislator in history as I focus on reducing the operating budget, waste and overreach into your lives and your place of employment.

The buck stopped with the Senate Majority where I served as the Majority Leader. We stopped 13 attempts to tax working Alaskans to fund a government that remains too large and passed a spending limit to control future growth.

We are also focused on the opioid-related increase in crime that we are experiencing similar to many across the country. Conservatives like me in the Legislature supported SB91 because it toughened sentencing for violent criminals, supported victim's rights and provided monitoring for suspects on pretrial. However, portions have been and must continue to be repealed until criminals are held accountable and Alaskans feel safe in their homes and communities.

The Senate also ensured that the historic PFD calculation remained in statute and passed legislation that only serves as a spending limit for the earnings reserve. PFDs will be paid first, using the original calculation Alaskans expect.

There is a bright future in store for Alaska. I have the vision, experience and background to help get us there. Experience matters most in times like these. I would sincerely appreciate your vote.
