Service Organization(s) Membership:

Alaska Department of Fish and Game Volunteer Bowhunting Safety Instructor

Special Interests:

Moose hunting, fishing and growing strawberries

Position Statement:

The State of Alaska is headed off the economic cliff because past legislatures have spent the citizens money irresponsibly. The legislature should remember its just temporary custodian of the citizens funds and should spend them wisely. This financial mismanagement started in the early 1990's and now the permanent fund is in jeopardy. Remember the permanent fund is the citizens share of our oil and gas resources, because the state and federal government has the oil and gas rights under public and private lands. A legislator should protect the permanent fund for the citizens at all cost.

We need to end tax credits for oil companies now. Tax credits are a scam and the citizens bear the brunt of bad policy. The legislature needs to remember that if it spends money, it should provide basic needs of the citizens, employ Alaskans and be of lasting public value.

A legislator should, make decisions based on whats good for the citizens, and not outside interests. A legislator should, look for issues in there district that negatively affect the citizen's and propose laws to remedy the problem. A legislator should, follow up with a citizen when a call is made to their office. This behavior has been a problem in the past.

I would like to be District 10's next legislator and I will always put it's citizen's best interest first.
