We hold these truths to be self-evident

- Governments are instituted among mankind to protect life, liberty and property
- Governments cannot exist without a Constitution!
- Our Government has not complied with its Constitution: “Article 8 Section 1. STATEMENT OF POLICY. It is the policy of the State to encourage the settlement of its land and the development of its resources by making them available for maximum use consistent with the public interest.” “Section 2. “... including land and waters, for the maximum benefit of its people.”
- Soldiers must build road to Nome surveyed in 1948 to make Alaska self-sustaining with access to resources and quadruple tourism.
- Only 2% of the food we eat is grown in Alaska. If food production is interrupted by war or other disaster in the lower states we will starve.
- Our children in the streets exposed to drugs or killing thousands in video games. No way to raise children!
- Children must learn the value of “all life” by caring for animals.
- You can’t have freedom without land ownership.
- Solution: Check box on PFD application get one acre of land.
- Money stays in the fund to save the Permanent Fund!
- Homer resident’s contributions to agriculture, fishing, ship building and tourism are extremely valuable. Your vote and voice is extremely important to the future of all Alaska.
- MAKE ALASKA GREAT AGAIN. www.GuardDogBooks.com
