Position Statement:

The FULL PFD must be reinstated as Governor Jay Hammond and others originally intended. Small businesses are the key to any economy and government over regulation, excessive taxation and requirements often work contrary to the success of

small businesses. Thus, I believe to get Alaska's economy running again we have to remove excessive governmental burdens and reinstate the full PFD. I firmly believe that a government that governs least, governs best.

SB-91 MUST be repealed. Businesses and employees also have to be safe where we live and work. I believe that every crime must come with a consequence. We must hold those who commit criminal acts accountable. Government's key responsibilities are Public Safety and Security, Education, and Infrastructure.

I bring proven leadership as a retired Military Officer with 27 years of honorable service that included multiple combat deployments and leadership assignments with Special Operations Units and the USAF Headquarters, Pentagon, D.C. I earned both a Bachelors and Masters degree in Business and Organizational Management. Annette, my wife of 18 years and I have been shocked to see the rampant crime, lack of safety in our neighborhoods and financial mismanagement resulting in the theft of the PFD. After a career of honorable service to our country, I will offer solutions to the challenges we now face and would be proud and honored to represent the good people of District 27. My integrity means my word is my bond to you.
