Position Statement:

It is crucial that the State of Alaska has a balanced, sustainable budget going into the future. This is necessary in order to provide a stable economy for Alaskans, as well as businesses and future investors in our state. Fish and fish related occupations are this state's largest private direct employer, we need to maintain a healthy, sustainable renewable resource in fish. Sufficient funding of the Department of Fish and Game is imperative. It is our duty to protect all of our natural resources for the betterment of the people of this state. Our Public Safety needs to be funded in a manner so our citizens can feel safe. As a Coastal Legislator, I recognize that a safe, dependable Alaska Marine Highway System is critical to our survival as coastal communities.

In order to accomplish these and other needs for Alaskans, it is necessary to have the ability and relationships to work across the table with all legislators. My record for the last 4 years clearly shows that I have created those successful, mutually beneficial relationships regardless of party affiliation.
