Position Statement:

I love Alaska and its self-reliant people. We live in a place with incredible beauty and abundant resources.

My goal is to create maximum opportunities for the citizens of Alaska. Jobs, housing, fishing, recreation, education and health care are some of the areas I want to focus on improving. There are significant hurdles. Our elected officials must address high crime rates, state government fiscal mess (including the PFD), an economy in recession, education quality and more. These challenges require the election of experienced, involved, and dedicated leadership to our legislature.

During my 24 years in the Coast Guard, many assignments required working with marine industries to meet US requirements while maintaining mutually cooperative relationships. As a Public Works director for Bethel and Kenai, I know the difficulties of providing essential services to people both in the bush and on the road system. I know what it is like to deal with state agencies, slim budgets, residents' expectations and the challenges of maintaining aging and expensive equipment. As a Kenai Peninsula Borough Assembly Member the last 5 years for District 3, and presently the Assembly President, I have made limited government and fiscal restraint my focus. I am proud of my voting record, which is consistent and conservative. This background is what I will bring to the state legislature; experience that has been honed to best serve the residents of District 29. I can think of no greater trust than to serve these communities on the Kenai Peninsula.
