Brewing Beer
Fishing
Writing Music

Other:

In 2015 I had a choice to make: either get sent to a new duty station, or retire from the Army and stay in Alaska. I chose Alaska! And now I am asking you, Alaska, to choose me.

Position Statement:

I have served my country with pride and honor, and I am ready to serve again. I will make job growth, education, energy, and the PFD my top priorities.

Alaska has the highest unemployment rate in the nation, at 7.3%. This unacceptable and must change. I will increase job creation where we need it the most, in small businesses and the renewable energy sector. The more small businesses we have putting more people to work, the better off we are as a whole.

I believe in a properly funded quality education for our children. They deserve nothing less, and I will fight everyday to make sure they have it. Also, teachers are the backbone of our educational system, and the primary touchpoint in our children's academic lives. We must restructure our educational funding to reflect this.

I support the monetizing of Alaska's natural resources only if it is done in a safe and environmentally responsible manner. All Alaska energy and resource development should be conducted with a "do no harm" mentality.

We must also have a comprehensive, long-term fiscal plan that provides for essential government services and infrastructure, includes community revenue sharing, and protects the Alaska Permanent Fund and its dividends. Alaska should be able to operate on a continuing basis without borrowing from the PFD, State Reserve Funds, or Permanent Fund principal.
