Position Statement:

Voters deserve a choice.

I grew up in Chugiak and love my community. It's been "Home" for over 30 years, but it has undergone incredible growth and change. We need a representative who

recognizes that growth as an opportunity and embraces it with enthusiasm. I offer a progressive voice for voters of District 12 and a choice that looks “North to the Future”.

As the state faces staggering budget deficits and rising crime, it’s not easy to focus on anything other than the problems right in front of us. But we must start planning for the future:

We need to move towards renewable energy and diversifying Alaskan energy resources. Not only does it make environmental sense, it makes economic sense.

We need commuting alternatives in Chugiak and the Valley. With Anchorage bus routes being cut and Bridgepocalypse, this year highlighted the transportation problems that our district faces.

We need to diversify our economy and support budding industries. I support Alaska’s growing brewery and distillery industry and will fight burdensome regulations.

For too long Alaska has led the nation in rape, sexual assault, and violent crimes against women. If elected, I will fully support efforts and legislation to combat these issues. I’m committed to ending the backlog of untested rape kits (see www.endthebacklog.org) and making Alaska a safer place for future for Alaskans.

I’m happy to provide you with more information on my policy positions and issues I care about. Please visit www.JeffersforAlaska.com for more information or contact me at JeffersforAlaska@gmail.com.
