

**State Representative District 39**  
**Neal W. Foster-Democrat**

**Statement:**

As your Representative it has been an honor to serve the people of House District 39, and with your support I will continue to work hard to improve life in rural Alaska.

To do that we must focus on training to give people job opportunities in areas such as health care, construction, fishing, transportation, resource development, and education. And we must insist that good Alaskan jobs go to Alaskan residents.

We must ensure that all our communities have basic services and infrastructure. Water and sewer is still lacking. Schools must be modernized or replaced due to safety concerns and overcrowding. Runways and roads need to be improved to enhance economic development. And public safety facilities are needed to support our Village Public Safety Officers (VPSO's), firefighters, and search & rescue teams.

The high cost of energy continues to devastate many households. I have sought to expand programs such as the Power Cost Equalization (PCE) and the Alaska Heating Assistance Program (AHAP). At the same time we must focus on supporting all renewable energy efforts through the renewable energy fund, tax credits, and education.

From fish enhancement efforts to fighting drug & alcohol abuse in our communities I will work to ensure that all concerns are addressed. It has been my privilege to serve as your Representative and thank you for your support.
