

**BALLOT MEASURE NO. 5**  
**INITIATIVE NO. 99HEMP**  
**Allowing Uses of Hemp, Including Marijuana**

This bill would do away with civil and criminal penalties for persons 18 years or older who use marijuana, or other hemp products. These products include hemp used for paper, fiber, food, fuel, medicine, or personal use in private. Marijuana would be regulated like an alcoholic beverage. Doctors could prescribe marijuana. The bill allows for laws limiting marijuana use in some cases to protect public safety. It grants amnesty to persons convicted in the past of marijuana crimes. The bill creates an advisory group to study restitution for those persons.

Should this initiative become law?

YES
