Voting Information

General Election Day is November 6, 2012

Polling Places

The polls will be open from 7:00 a.m. to 8:00 p.m. on Election Day. Voters may call our polling place locator number to find out their assigned polling place. **The number is 1-888-383-8683. In Anchorage, voters would call 269-8683.**

Bring Identification to the Polls

Voters **MUST** be prepared to show one form of identification. Voters may use the following ID: voter ID card, driver's license, State ID card, current and valid photo ID, passport, military ID card, birth certificate, hunting or fishing license. A voter may also use an original copy of one of the following documents if it contains the voter's name and current address: current utility bill, government check, bank statement, pay check, or other government document. *If a voter does not have identification when voting, the voter will be asked to vote a questioned ballot.*

What if the Voter's Name is not on Register

If a voter's name does not appear on the precinct register, the voter may vote a questioned ballot. Before receiving a ballot, the voter must complete a questioned ballot envelope. The voter's voted ballot will be placed in a secrecy sleeve and then the secrecy sleeve will be sealed inside the completed questioned ballot envelope. All questioned ballots are returned to the Election Supervisor for review and counting by the Questioned Ballot Review Board.

Marking the Ballot

When voting the ballot, the voter needs to completely fill in the oval next to the candidate or issue he/she wishes to vote for. Voters only have to mark the races or issues they choose to vote for. If a voter marks more than one choice in a race or issue, that section of the ballot will **NOT** be counted. The sections of the ballot that are properly marked will be counted.

If a voter makes a mistake marking the ballot, **DO NOT** erase or correct the ballot. The voter may return the spoiled ballot to an election worker and request a new ballot. If a voter attempts to correct a mistake on the ballot, the corrected vote may not be counted. **Note:** *A voter may only receive a replacement for a spoiled ballot 2 times.*

Assistance While Voting

If a voter needs assistance during the voting process, the voter may have a person of his or her choice provide any needed assistance as long as that person is not a candidate, the voter's employer, agent of the voter's employer or agent of a union the voter belongs to. The voter may receive assistance during each phase of the voting process, including assistance in the voting booth. Alaska Native language assistance is available in many rural communities and Filipino (Tagalog) assistance is available in Kodiak.

Campaigning Prohibited Near Polls

Alaska law prohibits political persuasion within 200 feet of any entrance to a polling place during the hours the polls are open. This means that there may not be any discussion or display of campaign items for candidates or issues appearing on the ballot at that polling place.

Polling Places

Due to redistricting of the legislative districts, precinct boundaries and polling places were changed to conform to the new districts adopted April 5, 2012 by the Alaska Redistricting Board. The precinct boundaries and polling places will be in effect again for the November 6, 2012 General election.

In July 2012, registered voters were sent a new voter identification card and notice of polling location. Voters are encouraged to go to their assigned polling place. If you go to a different polling location, you will be required to vote a questioned ballot.

If you are not sure where your assigned polling location is, you have the following options:

- **Scan the bar code on your my.Alaska.gov voter ID card.**
- **Locate your polling place by entering your address online at:**

www.elections.alaska.gov

- **Call the Polling Place locator at 1-888-383-8683, or in Anchorage, please call 269-8683.**

Election Results

The Division of Elections will begin posting election results beginning at approximately 9:00p.m on election night and will continue to update the results every 15-20 minutes after the polls close until results have been received by all precincts.

There are 2 types of results available.

- ❖ **Statewide Election Summary** – This report is a summary showing the entire results for each race.
- ❖ **Statement of Votes Cast** – This report contains the individual district results for each race. This report includes the results for each race for each precinct in the district.

Statewide Election Summary

| | | |
|---------------------|---|--|
| Registered Voters | = | Number of registered voters in the State of Alaska |
| Cards Cast | = | Total number of ballots cast |
| Number of Precincts | = | Total number of precincts where race appears on ballot |
| Precincts Reporting | = | Of the number of precincts where race appears, this is the number that has reported results. Throughout election night, this number changes as precincts report. Keep in mind that a precinct shows as reported when the optical scan or hand-count results are uploaded. There may still be results needing to be uploaded from the precinct's touch screen unit. |
| Times Counted | = | Number of ballots counted that included the individual race. |
| Total Votes | = | Number of votes counted in the individual race. This number may be lower than "times counted" because some voters chose not to vote in the race. |

Statement of Votes Cast

| | | |
|-------------|---|--|
| Reg Voters | = | Number of registered voters in the State of Alaska |
| Cards Cast | = | Total number of ballots cast |
| % Turnout | = | Number of cards cast divided by number of registered voters, expressed as a percentage. |
| Total Votes | = | Number of votes counted in the individual race. This number may be lower than "times counted" because some voters chose not to vote in the race. |

Early Voting

Early voting is available at each of the four Regional Elections offices beginning 15 days prior to the election. A voter is eligible for early voting if the voter's registration record is current, the voter has registered at least 30 days prior to the election, and if the voter is registered in the regional jurisdiction. The difference between early and absentee in person is that an early voter's eligibility is verified at the time of voting through the division's voter registration system. The early voter's ballot is placed directly into the ballot box. Absentee in person ballots are placed inside an absentee envelope and are reviewed by an absentee ballot review board to determine the voter's eligibility prior to being opened and counted.

Absentee Voting

Alaska law allows voters to vote absentee four ways: in person, by mail, electronically or by a special needs ballot. All voted absentee ballots are placed inside a special ballot envelope that contains information about the voter. The information provided by the voter on the ballot envelope is compared to the voter's registration information to determine the voter's eligibility. All absentee ballots are reviewed by a bi-partisan absentee ballot review board prior to being opened and counted.

Absentee Voting In Person

Beginning 15 days before an election, voters may vote at an absentee voting site. Ballots for all 40 districts are available at all Regional Election offices. In addition to

the Regional Elections offices, there are many other voting sites throughout Alaska that will have ballots for their house district. For more information or for a list of absentee voting locations visit our website or contact a Regional Elections office.

Absentee Voting By Mail or Electronically

Absentee By Mail - Absentee ballot applications can be submitted after January 1st of each election year. Voters may request a ballot for a specific election or for all elections in the year. Absentee by mail ballot applications for the General election must be received by October 27, 2012. Voters should apply early to ensure timely delivery of their ballot. Voted ballots must be postmarked on or before Election Day.

Absentee Voting By Electronic Transmission - Voting by electronic transmission should be the voter's last alternative for casting a ballot. Voters may apply for electronic voting October 22, 2012 through 5:00pm Alaska Time on November 5, 2012. Voters may return their voted ballot by mail or by electronic transmission. If a voter returns the voted ballot electronically, it must be received no later than 8:00pm Alaska Time on Election Day. If it is returned by mail, it must be postmarked on or before Election Day.

Special Absentee Ballots - A voter who may be living, traveling or working outside the United States or in a remote area of Alaska may request a special absentee ballot when applying for a by mail ballot. Special absentee ballots are mailed beginning 60 days prior to the election. In addition to the special absentee ballot, voters are mailed the official ballot. Voters are encouraged to vote and return both ballots. If both ballots are returned in time, only the official ballot is counted.

Special Needs Voting

If a voter is unable to go to the polls due to age, serious illness or a disability, the voter may have a personal representative pick up and deliver a ballot to the voter beginning 15 days before an election at an absentee voting site or on Election Day at the polling place. The voter's personal representative can be anyone over 18, except a candidate for office in the election, the voter's employer, an agent of the voter's employer, or an officer or agent of the voter's union.

Questioned Voting

There are several reasons why a voter would be required to vote a questioned ballot: the voter's name is not on the precinct register; the voter does not have identification and is not personally known by an election board worker; the voter's qualifications are questioned.

Before receiving a ballot, the voter must complete a questioned ballot envelope. The voted ballot is placed inside the completed envelope. The information the voter provides on the envelope will be used to determine the voter's eligibility. All questioned ballots are reviewed by a by-partisan questioned ballot review board prior to being opened and counted.

Counting Ballots

The results from absentee, questioned and early ballots are included in the statewide summary report. In addition, the statement of votes cast includes a breakdown of the results in each House District. Following is a summary of ballot counting for absentee, questioned and early voted ballots:

Absentee Ballots

Absentee ballots are counted by House District. As part of the review process and prior to counting absentee ballots, the division performs a cross-check of the names of absentee voters against the signed precinct registers to ensure the voter did not vote at the polls. Once this cross-check is complete and the ballots have been reviewed by the absentee ballot review board, the ballots can be opened and counted. Regional Elections offices are expected to conduct the first count of absentee ballots on the 7th day following the election. The regional office will then count again between the 10th – 15th day following the election. The statutory deadline for receiving and counting official absentee ballots is 15 days following the election. After all official ballots are counted, special advance ballots will be counted.

Questioned Ballots

Questioned ballots are counted by House District. Questioned ballots from the entire district must first be reviewed by a questioned ballot review board prior to being counted. As part of the review process and prior to counting questioned ballots, the division performs a cross-check of the names of questioned ballot voters against the signed precinct registers to ensure the voter did not cast a ballot in the precinct he/she is registered and also vote a questioned ballot at another precinct. Once this cross-check is complete and the ballots have been reviewed by the questioned ballot review board, the ballots can be opened and counted. Questioned ballots are generally counted beginning the 7th day following the election and again between the 10th – 15th day following the election. The statutory deadline for counting questioned ballots is 15 days following the election.

Early Voted Ballots

Regional offices count the early voted ballots that were voted prior to Election Day on election night. The early ballots that are voted on Election Day are counted by the regional office on the 7th day following the election.

“Close Race” Policy

The Division of Elections first priority is to protect the integrity of the electoral process and to ensure that every absentee and questioned ballot receives thorough review to determine eligibility. It is our policy that all absentee and questioned ballots will be reviewed and processed by district in date order as they are received. Close races will be processed in accordance with this policy.

Alaska's Ballot Counting System

Alaska uses three different methods to count ballots at the precinct level:

- ❖ Hand-count (133 precincts)
- ❖ Optical Scan (305 precincts)
- ❖ Touch Screen w/ voter verifiable paper trail

Alaska's ballot tabulation system has a paper trail of every ballot cast. Each precinct receives paper ballots that are either hand-counted when the polls close or counted using an optical scan unit as the voter inserts the ballot into the optical scan. In addition, during federal elections, each precinct has a touch screen voting unit equipped with a voter-verifiable paper trail that allows the voter to verify the printed version of the ballot prior to casting the ballot. 99% of all voters in Alaska cast a paper ballot. The touch screen voting units are used by 1% of the voters.

The ballot tabulation system used in Alaska to produce and count ballots is federally certified and is thoroughly tested prior to each election. It is a stand-alone system that is not connected to the internet or to a network.

Each optical scan and touch screen voting unit, along with their corresponding memory cards are tested prior to the election. A functionality test is conducted to ensure the equipment is in proper working order. Two different logic and accuracy tests are performed, by two different bi-partisan boards, on memory cards to ensure the cards are counting the ballots correctly. In addition to this testing, the division performs a HASH code verification on the software used in the ballot tabulation system computers prior to the election to verify the software on Alaska's computers match the certified software that is in the National Software Reference Library (NSRL) maintained by the National Institute of Science and Technology (NIST). The HASH verification is an extra security measure implemented in Alaska to ensure the software used in Alaska's ballot tabulation system has not been tampered with.

In addition to the pre-election testing, the division is required by law to conduct a verification of machine counts by hand-counting ballots from a random sampling of precincts. In fact, through this verification, 5% of the ballots cast in each of the 40 house districts throughout Alaska are hand-counted after the election to verify the election results are accurate. If we find a discrepancy of more than 1% in the hand-count verification, we are required to hand-count all of the ballots cast in the district. There has never been a discrepancy of 1% or greater during the 6 years that this requirement has been in place. In fact, the few minor discrepancies that have been found were related to "marginally" marked ballots – meaning the voter did not completely fill in the oval for his/her selection, as instructed, and the optical scan unit could not detect the mark.

In an effort to ensure the state's ballot tabulation system is secure, the Lt. Governor and the Division of Elections commissioned the University of Alaska, Anchorage to conduct a study in 2007 and 2008 to examine the security of the state's election system. As part of the review, UAA examined not only the voting technology but also the policies and procedures used by the Division of Elections that add to the security of the system. The University found that Alaska's system is among the most secure in the country. Although

the overall system was found to be secure, the University provided several recommendations to further improve security. The Division of Elections has since implemented all recommendations provided by the University. The most recent recommendation implemented by the division was the upgrade, in 2011, of the ballot tabulation system's software to Assure 1.2. The Assure 1.2 software upgrade includes significant improvements to overall system security and addressed known vulnerabilities in the previous version of the software.

The testing, security and verification processes used by the Division of Elections during each election and reviewed by the University of Alaska, Anchorage, along with the upgrade of the ballot tabulation system software, ensures that Alaska's ballot tabulation system is secure and our election results are accurate.

Election Recount Statutes

The Division of Elections has included on this page and the following pages, sections in Title 15 that pertain to the election recount process.

Sec. 15.20.430. Authorization of recount application.

(a) A defeated candidate or 10 qualified voters who believe there has been a mistake made by an election official or by the counting board in counting the votes in an election, may file an application within five days after the completion of the state review to the director for a recount of the votes from any particular precinct or any house district and for any particular office, proposition, or question. However, the application may be filed only within three days after the completion of the state review after the general election for a recount of votes cast for the offices of governor and lieutenant governor. If there is a tie vote as provided in [AS 15.15.460](#), the director shall initiate the recount and give notice to the interested parties as provided in [AS 15.20.470](#).

(b) The date on which the director receives an application rather than the date of mailing or transmission determines whether the application is filed within the time allowed under (a) of this section. If the actual physical delivery by telegram of a copy in substance of the statements made in the application for recount is received in the office of the director at or before 5:00 p.m. Alaska Standard time on the due date, the application will be accepted; providing the original signed application is postmarked at or before 5:00 p.m. Alaska Standard time of the same day.

Sec. 15.20.440. Form of application.

(a) The application shall state in substance the basis of the belief that a mistake has been made, the particular election precinct or election district for which the recount is to be held, the particular office, proposition, or question for which the recount is to be held, and that the person making the application is a candidate or that the 10 persons making the application are qualified voters. The candidate or persons making the application shall designate by full name and mailing address two persons who shall represent the applicant and be present and assist during the recount. Any person may be named representative, including the candidate or any person signing the application. Applications by 10 qualified voters shall also include the designation of one of the number as chair. The candidate or persons making the application shall sign the application and shall print or type their full name and mailing address.

(b) Candidates, political parties, or organized groups having a direct interest in a recount and who are seeking to protect their interests during a recount may provide, at their own expense, two or more observers to witness the recount.

Sec. 15.20.450. Requirement of deposit.

The application must include a deposit in cash, by certified check, or by bond with a surety approved by the director. The amount of the deposit is \$1,000 for each precinct, \$2,000 for each house district, and \$15,000 for the entire state. If the recount includes an office for which candidates received a tie vote, or the difference between the number of votes cast was 20 or less or was less than .5 percent of the total number of votes cast for the two candidates for the contested office, or a question or proposition for which there was a tie vote on the issue, or the difference between the number of votes cast in favor of or opposed to the issue was 20 or less or was less than .5 percent of the total votes cast in favor of or opposed to the issue, the application need not include a deposit, and the state shall bear the cost of the recount. If, on the recount, a candidate other than the candidate who received the original election certificate is declared elected, or if the vote on recount is

determined to be four percent or more in excess of the vote reported by the state review for the candidate applying for the recount or in favor of or opposed to the question or proposition as stated in the application, the entire deposit shall be refunded. If the entire deposit is not refunded, the director shall refund any money remaining after the cost of the recount has been paid from the deposit.

Sec. 15.20.460. Determination of date of recount.

If the director determines that the application is substantially in the required form, the director shall fix the date of the recount to be held within three days after the receipt of an application requesting a recount of the general election votes cast for the office of governor and lieutenant governor and within five days after the receipt of an application requesting a recount for any other office, question, or proposition.

Sec. 15.20.470. Requirement of notice.

The director shall give the candidate or designated chairperson signing the application, the two or more persons appointed to represent the applicant during the recount, and other directly interested parties, notice of the time and place of the recount by certified mail, telegraph, telephone, or facsimile.

Sec. 15.20.480. Procedure for recount.

In conducting the recount, the director shall review all ballots, whether the ballots were counted at the precinct or by computer or by the district absentee counting board or the questioned ballot counting board, to determine which ballots, or part of ballots, were properly marked and which ballots are to be counted in the recount, and shall check the accuracy of the original count, the precinct certificate, and the review. The director shall count absentee ballots received before the completion of the recount. For administrative purposes, the director may join and include two or more applications in a single review and count of votes. The rules in [AS 15.15.360](#) governing the counting of ballots shall be followed in the recount when a ballot is challenged on the basis of a question regarding the voter's intent to vote for the candidate, proposition, or question. The ballots and other election material must remain in the custody of the director during the recount, and the highest degree of care shall be exercised to protect the ballots against alteration or mutilation. The recount shall be completed within 10 days. The director may employ additional personnel necessary to assist in the recount.

Sec. 15.20.490. Certification of results.

If it is determined by recount that the plurality of votes was cast for a candidate, the director shall issue a certificate of election or nomination to the elected or nominated candidate as determined by the recount. If it is determined by the recount that a proposition or question should be certified as having received the required vote, the director shall so certify except that the lieutenant governor shall so certify if the proposition or question involves an initiative, a referendum, or a constitutional amendment.

Sec. 15.20.500. Authorization for expanding recount. [Repealed, Sec. 6 ch 26 SLA 1966].

Repealed or Renumbered

Sec. 15.20.510. Provision for appeal to courts.

A candidate or any person who requested a recount who has reason to believe an error has been made in the recount (1) involving any question or proposition or the validity of any ballot may appeal to the superior court in accordance with applicable court rules governing appeals in civil matters, and (2) involving candidates for the legislature or

Congress or the office of governor and lieutenant governor may appeal to the supreme court in accordance with rules as may be adopted by the court. Appeal shall be filed within five days of the completion of the recount. Upon order of the court, the director shall furnish the record of the recount taken, including all ballots, registers, and other election material and papers pertaining to the election contest. The appeal shall be heard by the court sitting without a jury. The inquiry in the appeal shall extend to the questions whether or not the director has properly determined what ballots, parts of ballots, or marks for candidates on ballots are valid, and to which candidate or division on the question or proposition the vote should be attributed. The court shall enter judgment either setting aside, modifying, or affirming the action of the director on recount.

Sec. 15.20.520. Provision for appeal to legislature or Congress.

A candidate or persons who requested a recount, who have reason to believe an error has been made in the recount involving a candidate for the general election for the state legislature or Congress, may appeal to the chamber in which the candidate seeks membership in accordance with applicable rules of the legislature or Congress. Upon request of the legislature or Congress, the director shall furnish the record of the recount taken including all ballots, registers, and other election material and papers pertaining to the election contest.

Sec. 15.20.530. Determination of tie votes.

If after a recount and appeal two or more candidates tie in having the highest number of votes for the same office, the director shall notify the candidates who are tied. The director shall notify the candidates of a reasonably suitable time and place to determine the successful candidate by lot. After the determination has been made by lot, the director shall so certify.
