STATEMENT:

**"Government has no other end, but the preservation
of property"**

-John Locke, an excerpt from the Second Treatise of Civil
Government, 1690

I believe government desperately needs to return to this
concept. Government's **only** "job" should be enabling
individuals, and local businesses, to thrive without
unnecessary interference. These ideas and priorities
guide my work for you.

• **Securing & Protecting Property Rights**

-By promoting 'Grandfather Rights' and independent
service areas, and opposing forced boundary
changes.

• **Repealing Unnecessary and Harmful Government Regulations**

-Through analyzing the purpose and actual effect
of laws, pushing back to repeal harmful regulations
both current and proposed.

• **Promoting Alaska's National Guard & military bases**

-Showing our gratitude to our troops and promoting
the economic and security value of our installations.

• **Researching and Promoting Innovative Energy Solutions**

-Pursuing natural gas, additional oil fields, and mining
development is important. But from propane distribution
to biofuel conversion, there are other effective ways
of addressing the Interior's energy crisis.

I will always make time to accommodate your schedule
and hear your concerns; your thoughts are important.
Thank you for the honor of working for you.
