**Other (Biographical Information):**  
I grew up on Eielson AFB and out in Salcha. I received an excellent education in High School. I moved to Anchorage in 1986 because there was no work in the interior due to the crash in oil prices. I worked and went to college at UAA graduating with a Bachelor of Arts in Criminal Justice.

I was severely injured taking a female into custody. My neck was broken and I ruptured some disks in my lower back. In

## Position Statement

I believe that the first role of government is to protect its citizens, not only from crime, but from bad air, bad water, and super greedy corporations. The next role of government is to do and build the things that we cannot do ourselves. Building and maintenance of roads and bridges, building and running jails and prisons, building, operating, and maintaining airports, ports. Government is not the enemy some have made it out to be. The next role of government in Alaska is to fund education. This has not been happening and it is a constitutionally mandated obligation. The Founders of Alaska wanted it that way and that is the way it should be done.

Alaska has a nest egg in the Permanent Fund. The government needs money to pay for services. Oil is just not what it used be, so the earnings reserve account helps pay for the services we expect from our government.

I am running to make sure things get done. Public safety, infrastructure, education are my priorities. I want to ensure the protection of the Permanent Fund Principal, earnings reserve account, and to build and grow the fund so it will be there for future generations. Alaska has, for decades, needed a long range fiscal plan I will sit with other stakeholders to come up with a plan that is acceptable to the majority of Alaskans, not big corporations that, in the past, have taken the biggest chunk and ran with no benefit to Alaskans.
