Position Statement

I care about people! I take their thoughts and turn them into results. When Peter Burchell was concerned about students dropping out of school, I worked with him to finance and build the Burchell Alternative. School. This one action allowed thousands of young people to become productive adults.

When people came to me with a need for Senior housing in Willow, I lead the organization to obtain 3.5 million dollars in grants and build 12 low-income Senior apartments. When people were concerned about danger on the flats without lights, I wrote an ordinance and convinced the Assembly to approve them. When people were concerned about the unfair personal property tax, I wrote the ordinance that rescinded it.

Most people running for office already have their agenda in mind rather than listen to your problems and your ideas. I get things done by listening. I spent 11yrs on the Mat-Su Assembly and 22yrs of military service defending your way of life and a future for your children.

I understand our constitution and the rights it affords us. I will protect them to the best of my ability and treat all people fairly and equally. Your opinion and input are important to me. Before I push that button, I always make sure I understand how that decision will affect your future and life. You will be proud of my attendance record, my understanding of government, my integrity, my dedication, and my proven leadership ability.
