Other (Biographical Information):

I am Tom McKay, and I’m running to represent Senate District H in the Alaska State Senate. I first arrived in Alaska in 1980 as a Petroleum Engineer, and over the last 44 years I have worked to explore and develop Alaska’s vast oil and gas resources. I will contribute to the present and future growth of our state as a member of the Alaska Legislature. We must responsibly develop our natural resources to maintain our economy and our government.

Position Statement

Through my work and career in the oil industry, I know both ends of the resource development sector, and understand what it will take for resource development to flourish in Alaska, to continue to provide jobs and revenue for the state, and to maintain a high standard of living for Alaskans. Simply stated, I believe that we cannot thrive as a state unless we put the politics aside, and focus on the economics of energy and resource wealth production in the private sector.

We must let our resources lead the way forward, live within our means, and tackle fiscal irresponsibility. I am dedicated to the free enterprise principles that have worked so well for our state and nation. My positions are also strong on placing a cap on government spending, no new taxes without a vote of the people, a sustainable PFD, parents' rights in education, education reform, and stronger penalties for serious and violent crimes.

We need to get back to the fundamentals that made America and Alaska great. The Federal Government is making this journey more difficult every day. We must fight for the right to responsibly develop our resources as promised in the Statehood Compact.

I humbly ask you to join me in this pro-growth, pro-freedom, pro-private sector campaign so we can make significant positive change in Alaska, together. I would appreciate your vote in the Primary Election on August 20th, and in the General Election on November 5th.
