Position Statement

Meet Janice : A Proven Leader for Alaska's Future

I bring a wealth of experience and dedication to my candidacy for Alaska State Senate, District F. As the daughter of a US Marine and a union telephone operator, I was the first in my family to attend college, earning my BS in Nursing from the University of California, San Francisco, and then grad school in Public Health. Since moving to Alaska in 1991, I co-founded Alaska Water Systems and have worked tirelessly since 2010 as a paralegal advocating for Alaskan families.

I am committed to securing consistent and predictable public education funding, as Alaska's Constitution mandates, to ensure every child in Alaska has access to quality education.

I support restoring a defined benefit pension plan for educators, first responders, and other public servants to attract and retain top talent to the state.

I am a strong proponent of a comprehensive long- term fiscal plan and reducing our dependence on volatile oil prices.

With my background in nursing, I understand the importance of improving healthcare and early intervention in education and will fight to bring widely available and affordable childcare to support the hard-working families of District F.

I am ready to hit the ground running on day one and address the issues that matter most to Alaskans. Together, we can better secure Alaska's future.
