Construction

Position Statement

My Name is George Rauscher. I've lived in Sutton for 46 years. I am a State House Representative in the State House Majority. I believe Alaska's better days can still be ahead of us. Though I also believe we may never see that happen if we don't start to take a different approach toward governing today.

Capitalism and Entrepreneurship is what made this country and this state great. As we drift closer to greater reliance on government, we continue to fail our citizens and rob them of their ability to succeed in life and provide for themselves. Government must get out of the way of the private sector if we are to nurture its proliferation which is needed to benefit our states prosperity.

We must work toward providing food security, demand energy reliability for heating and energizing our homes, incentivize manufacturing, encourage instate resource development and export-thereby paving the way toward family wage paying jobs. These are vital to our future economic potential.

I will continue to remove unneeded duplicity in government regulations, prevent government overreach and red tape which are stifling industry investment.

We must reinstate election confidence amongst voters, address prolife issues, ensure parental rights in education, provide fiscal restraint and protect the PFD. To accomplish these goals, we must continue to find ways to work together in Juneau this session and accomplish our work on time (no special sessions).

We've too much to lose, if we don't get it right.
