Position Statement

Why am I running? Both of my opponents are incumbents, and we need change in Juneau. We need a State Senator for West Anchorage passionate about public service and fighting for our fair share of state funding for schools, infrastructure (roads, bridges, drainage), and public safety. I support the responsible development Alaska's natural resources (providing more income for the state) while I am committed to using state funds wisely.

While other candidates make promises, I have a proven record of working across the aisle to get things done. As a State Representative, I sponsored and passed two bills (each bill had at least 12 co-sponsors from both sides of the aisle) that improved the health and safety of Alaskans. I filed an additional 10 other bills to increase the efficiency and accountability of Alaska's programs. As Chair of the Chugach Electric Board of Directors, I started an energy conservation program and actively supported the re-examination of the Susitna dam to diversify our energy sources. There were many additional accomplishment to benefit ratepayers, including ensuring affordable and reliable electricity.

I have a diverse tool kit to effectively represent the residents of West Anchorage (Turnagain, Kincaid, Sand Lake, Jewel Lake, Campbell Lake and Bay Shore)/ I have experience with state, local and federal governments. My priorities are to lessen the financial burden on our community and individuals during these challenging times of inflation, ensure the delivery affordable and reliable energy, improve our infrastructure and promote responsible development of natural resources.
