Other (Biographical Information):

Exposed corruption resulting in College president and Board president both sent to prison. Despite threats and intimidation, I refused to back down. My determination and integrity led to their convictions.

Position Statement

Our US Senate must work together prioritizing needs for our citizens' wellbeing, not those of special interest groups. Our nation faces a crisis as we are on the forefront of global climate warming. Immediate budget allocation to aid this impact must be assigned and efforts to mitigate prioritized. I have signed pledges to not accept donations from oil, gas or coal industries. I pledge to prioritize the health of our families, climate and democracy. Our Native American/Alaska Native/Hawaiian communities must be preserved in compliance with the United Nations Declaration on the Rights of Indigenous Peoples.

WWII brought together individuals of all backgrounds and abilities to defend America's safety and freedom. Our veterans deserve quality services and health care. Aging veterans' personal stories have inspired me to advocate and be a voice for those in need. We must establish a cost efficient single payer healthcare system providing quality for all our citizens. We must federally legalize cannabis, taking it out of the murky limbo between state and federal law, providing tax revenue earmarked to support free higher education and increase national K 12 education outcomes: Ensuring net neutrality and broadband access will also enhance education.

Constitutional amendments and federal laws must be passed to end all forms of discrimination ensuring access to opportunity and fair treatment for all. With your vote on August 18 and in November, I will proudly represent your voice in the US Senate.
