Division of Elections 

Date: October 29, 2019

Subject: 19RDAP – Recall Michael J. Dunleavy as Governor of Alaska Application Signers

The Division of Elections has reviewed the signatures pages submitted for the above referenced recall petition application.

The application must contain the signatures of voters equal in number to 10 percent of those who voted in the preceding general election. There were 285,009 votes cast in the 2018 general election. Therefore, the application must contain signatures from at least 28,501 qualified voters.

We have determined that 46,405 of the 48,419 legible signatures submitted to be those of qualified voters. Of the 46,405, there were 124 qualified voters designated to serve as sponsors. The application has a sufficient number of sponsors and signers to qualify for circulation of a recall petition under AS 15.45.500.

For your information, I have attached the Application Petition Summary Report that reflects the total number of qualified and unqualified signers. Also attached is the Petition Statistics Report that identifies by booklet the total number of signatures, the number of qualified and the number of unqualified signatures. Booklet 1 was used for the designated 124 sponsors.

I await your review of the grounds for recall to determine if the application will be certified or denied. Please let me know if you have any questions.
