Community & Regional Affairs, Deputy Director, Division of Housing Assistance/Rural Housing Loan Program
Alaska Energy Authority – Special Assistant to the Executive Director & Legislative Liaison
Alaska Industrial Development & Export Authority (AIDEA) Economic Development Coordinator
Presently – Investment Advisor Assistant, Woodbury Financial Services

Other:
I have a wide range of experience in government and private sectors. I know how to balance a budget without losing services, protect workers’ rights and support quality education. We need a serious reboot along with increased revenues in Alaska, as well as new faces in the Legislature. We can accomplish this together. I know I can contribute my well-versed professional and life experiences in pursuit of these goals.

Position Statement:
In my former campaign I walked every precinct knocking on over 3,000 doors. I listened and learned while chatting with voters and the input was invaluable. What was shared as priorities was funding to provide excellent public education for pre-K through 12th grade, a well-funded university system & access to technical training, affordable healthcare; improved public safety & safe neighborhoods for our families; increased mental health and drug & alcohol treatment services; Alaskan small business assistance; and to protect our PFD and healthy diversified economic development and good paying jobs.
Now, more than ever, as we have recently faced economic uncertainty with the onset of the COVID-19 dilemma coupled with continuing serious fiscal challenges, we need to think long and hard who we are choosing to make vital decisions. Blazing new pathways and making honest decisions based on *matters of principal* will go a long way towards ensuring Alaskans a more stable, secure and prosperous economic future and better quality of life for future generations. **The clock is ticking.**

So, where do we go from here? Good government depends on the election of leaders who are passionately dedicated to working for the best interests of all citizens in the tradition of our *Alaska Spirit* of shared values and responsibility. I can honestly commit to you; I will always choose in the “public’s interest” rather than that of “special interest.”

I would be honored by your vote. *We can do this together!*
