Disabled American Veterans

**Special Interests:**  
Personal interests include music, family, hunting, fishing, community activity and volunteer service.

**Other:**  
Sigma Beta Delta Honors Society for Academic Excellence, inductee.

**Position Statement:**  
The earth shook, oil prices plummeted, wildfires burned, and COVID-19 government mandates wreaked havoc on Alaskans’ ability to earn a living. It is time to rise to the challenges we face and apply the economic principles that made America great to spur an economic recovery.

My opponent thinks taxes are resources; they aren’t. Developing our natural resources has paid the cost of over 90% of all government services, created our Permanent Fund, and created jobs and opportunities for families like yours and mine. What Alaska needs is leadership to clear obstacles that Democrats have placed in the path of resource development. We have 52,000 pages of restrictions and regulations that are strangling responsible development. I will work to clear the path to the creation of new wealth for Alaska.

We all have to live within our means, but bureaucrats think that doesn’t apply to government. I support and will push hard to put a spending cap on the state budget.

The Permanent Fund was created to provide a source of interest income to run our state in times of need. The dividend program was added to give Alaskans a stake in the Fund, but our stake is solely based on the success of the Fund, which is based on the development of Alaska’s resources. If we just spend the Fund now – we kill the golden goose. Alaskans gain...
maximum benefit by supporting resource development to feed the golden
goose so it can continue to lay dividends long into the future.
